This classic tuner has been the industry standard for many years and for good reason. The Boss TU12 is a quick and accurate tuner with a highly visible display which makes it a nice choice for onstage use. The compact size allows for easy positioning on those pedal boards with limited real estate. As with most chromatic tuners. The unit automatically detects the note being played, displays it, and shows its tuning status. The tuning range is well suited for most instruments and you can make minute adjustments to allow for concert pitches. To top it off, Boss added a very sensitive builtin condenser mike for those nonelectric players out there.
